1 PURPOSE

The purpose of this user manual is to provide a general overview of the AQCS's Import Clearance System for the Importers & CHA's and help them understand the step by step process which will be followed by them during filing of the application form for Advanced NOC or Provisional/Final NOC for Commercial Livestock, Pets (Cats & Dogs) and Livestock Products.

All other functionalities provided in the AQCS Import Clearance System for Importers/CHAs will also be explained in detail in this user manual.

2 AQCS IMPORT CLEARANCE SYSTEM OVERVIEW

The AQCS Import Clearance System is an online system which is fully integrated with Customs SWIFT platform.

When an import consignment of Importers is to be cleared by Customs at any port location in India then the Importers/CHAs will have to apply in Customs SWIFT platform.

The information filled by the Importers/CHAs in the Customs SWIFT platform will automatically get transferred to the AQCS Import Clearance System if the consignment under consideration comes under the jurisdiction of AQCS.

Importers & CHAs will have to register (one-time) in the AQCS Import Clearance System to obtain their login credentials.

Once these login credentials are available then the Importers & CHAs will have to furnish additional details which will be filled by the Importers/CHAs in the online application form and thereafter the application will be submitted by Importers/CHAs to the port where the consignment is lying.

The port officers will scrutinize the application, inspect the consignment, samples can be drawn for laboratory testing purpose etc and thereafter the NOC or Destruction Order will be issued by the Quarantine Officer of the port.

The NOC or Destruction Order will be automatically passed on to Customs SWIFT platform and Importers/CHAs.

3 IMPORTERS/CHAS

All the features of AQCS Import Clearance System explained in the following sections are common for both Importers & CHAs. If there are any differences in these features then these will be highlighted in the sections where these differences occur.

4 LOGIN

Importers / CHAs can log into the AQCS Import Clearance System using their Login credentials which they will receive after successful registration in the AQCS Import Clearance System.

From the home page of AQCS Import Clearance System (<u>http://indialog-pga.commerce.gov.in/aqcs</u>), click the Login link which is visible in the menu at the top.

The following screen will appear.

Annual Constraints of the service of	Home About FAQ Contact Login AQCS Import Clearance System v1.0
	Login Info
Username Username	New User ? Sign UP (Custom House Agent)
Password Password	Sign UP (Importer)
Forgot Password?	

Enter Username & Password and click on "Sign In" button.

After successful sign in by Importers/CHAs the following Dashboard screen will appear.

5 DASHBOARD

Importers / CHAs can view the status of all the applications filed by them. They can also check if any application has been sent to them for clarification purpose by Quarantine Officer as shown in the screen below.

Importer/CHA will know the total no of NOC applications & total no of advanced NOC applications filed by them. If there are any applications for clarification then the same will be visible in the dashboard as shown above.

In the next section Importer/CHA will find out the status of the applications filed by them.

The last section will show 'NOC issued' status for applications which have been processed by AQCS officers.

6 APPLICATION FILING FOR ADVANCED NOC

On clicking the 'New NOC Application' from the menu option, Importer/CHA will get the following screen.

The Importer/CHA can click on the link "File New Application" to file new applications for NOC and "File New Application for Advanced NOC" to file new applications for Advanced NOC.
